

# Sample Text

----- **Bleed Area ("No White Border" Line)**

Bleeds allow you to run artwork to the edge of a page. The artwork is printed on a large sheet of paper and then trimmed down to the Trim Box. Standard Bleed is 0.125 inches.

----- **Trim Box (Cut Line)**

This is the dimension of your finished card, 6" x 11". Postcard will be cut along this line.

----- **Text Zone (Safe Line)**

For best results, keep all text, important images, and logo within this box. Also known as the margins, or safe zone.

After your artwork is finished, DELETE THIS TEMPLATE.
